## Take Away Points

- Schools and colleges of pharmacy are covering content on preparing for national emergencies.
- CDC Domains 4, 1 and 2 were the most popular domains applied.
- Domains are covered based on the disasters the regions are prone to.

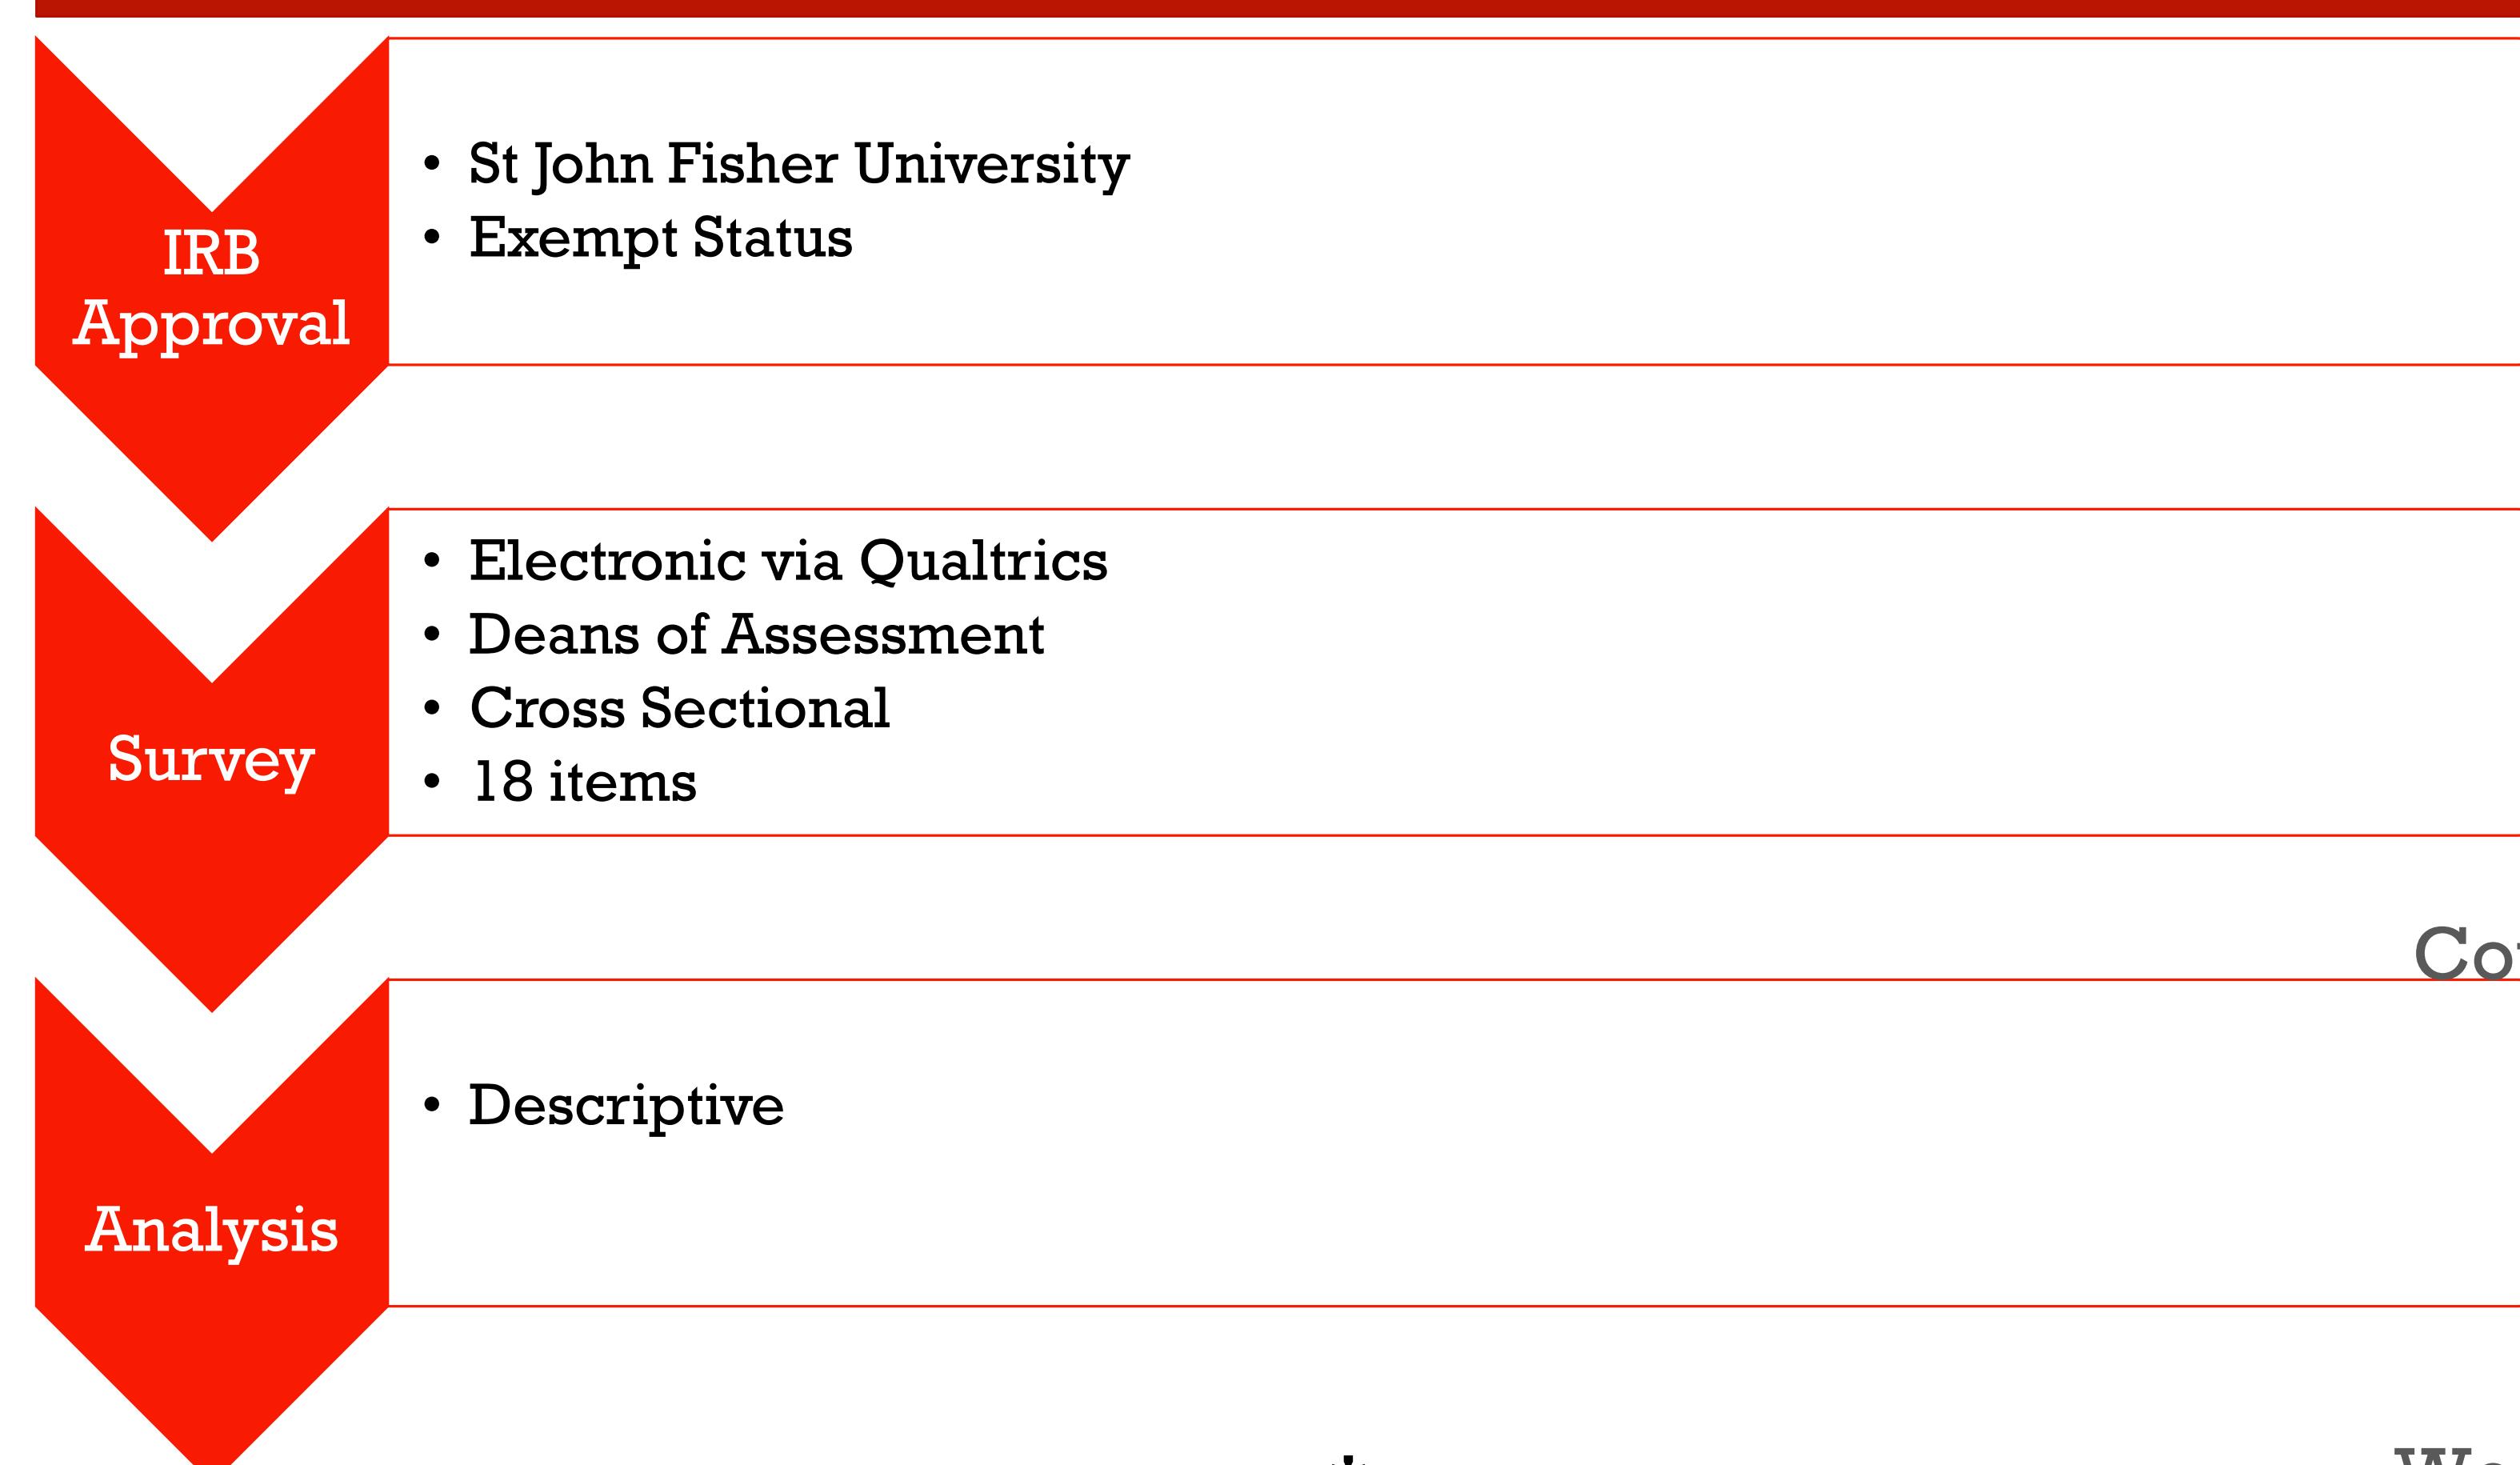

## Background

- Pharmacists played a vital role on the front lines throughout the COVID 19 pandemic.<sup>1,2</sup>
- We have demonstrated that there is a level of expertise to be engaged in natural disasters.
- This presents an opportunity for the next generation of pharmacists to have comprehensive training in the area of emergency preparedness.

## Study Objectives

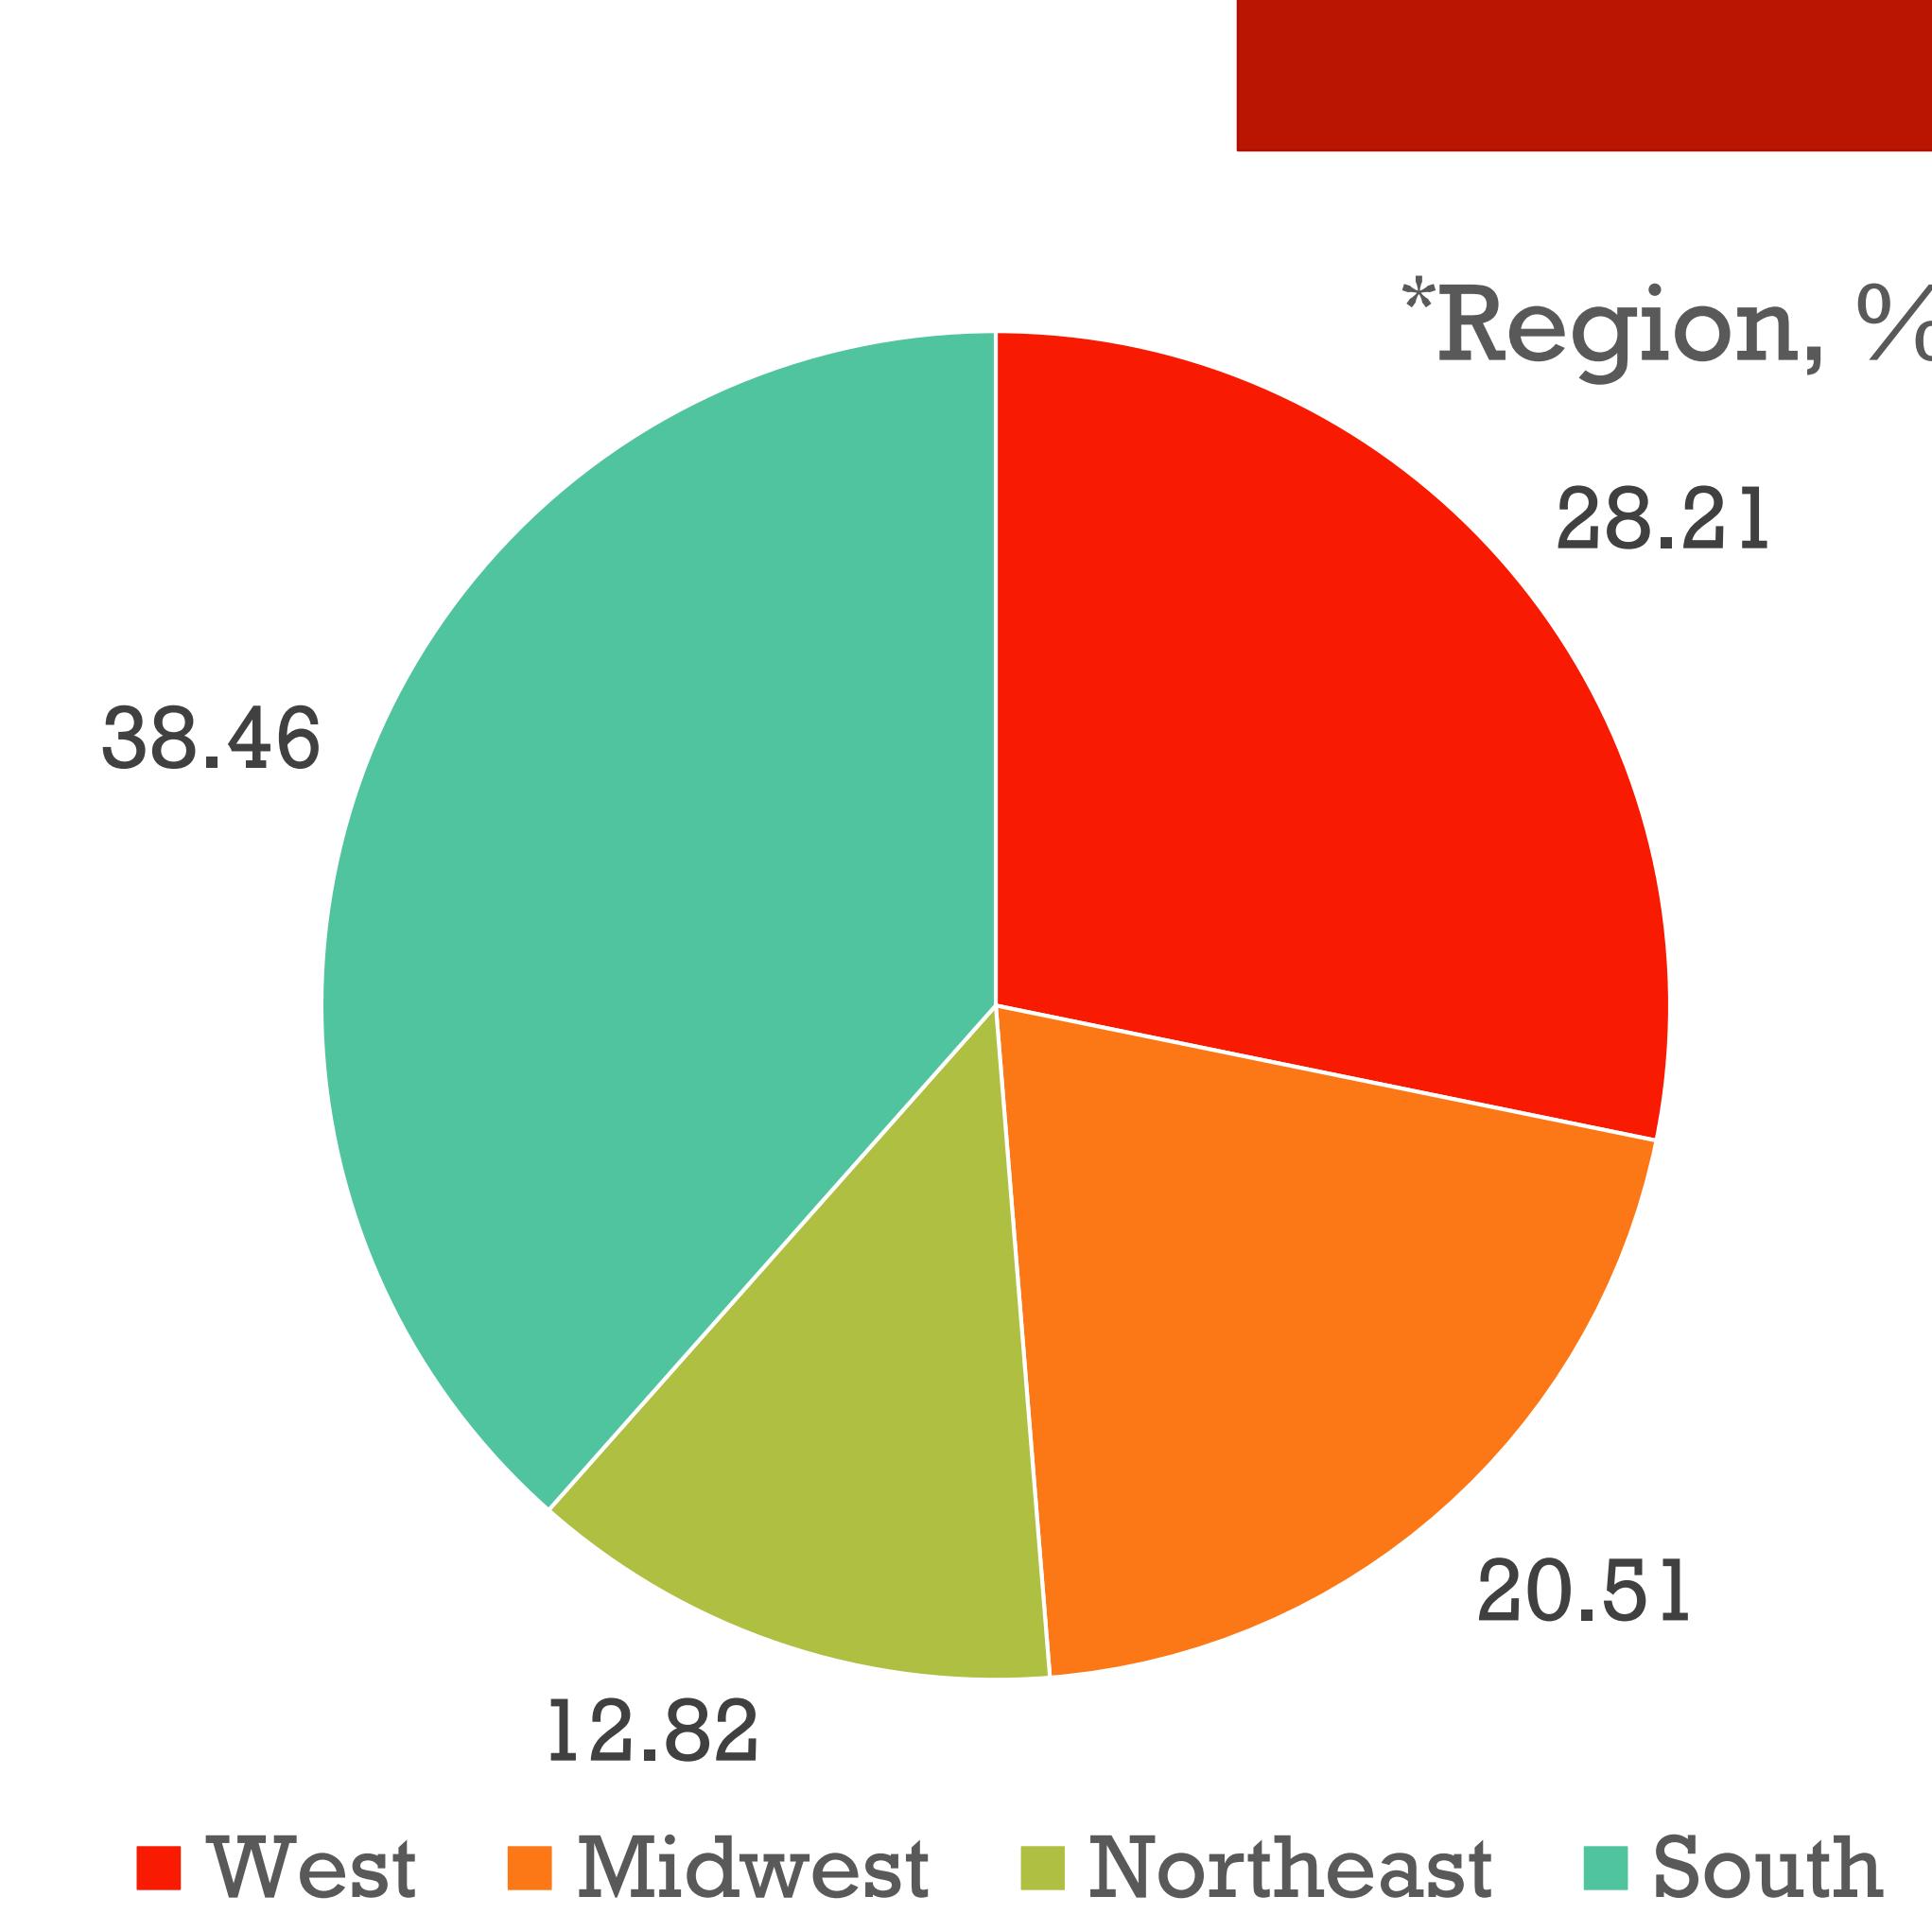

- To identify if schools and colleges of pharmacy cover content on preparing for national emergencies in their curriculum.
- To compare curricular content across schools and colleges of pharmacy on emergency preparedness.
